

Internet Marketing - 480 Stumbles and 4000 Social Bookmarking Now Available

Internet marketers and Webmasters dig in. Now made available 2 ultra-effective Internet marketing strategies to acquire massive keyword targeted Web traffic - 4000 social bookmarking & 480 stumbles

SearchMarketingSales.com, a certified SEO and Internet marketing firm stepped forward to introduce two potent, yet extremely affordable Internet marketing campaigns. As Web traffic is the life blood of businesses with a URL for an address, the amount of Web site traffic is one of the major determinants of how well (or how bad) an online business will fare.

Get Massive Web Traffic NOW

Today, two main internet marketing strategies stands out when it comes to gaining massive keyword targeted Web traffic - Social Bookmarking & StumbleUpon. The more traffic a Web site gets, the more potential customers it acquires; and the more potential customers, the more sales one can generate. In fact a Web Site Promotion without those Internet marketing strategy would not be complete.

\\"We have the tools and expertise to submit up to 480 Stumbles with reviews and featured tag pages; and up to 80 user names in 50 High PR Social Bookmarking sites.\\

Social Bookmarking:

High PR and authority Social Bookmarking sites get millions of hits per day and help not only to get keyword targeted traffic, but also to be ranked well on all search engines.

Potential Challenges:

However, bookmarking a site is time consuming and not easy - if one submit several links at once, it will be flagged as spam. Instead if one submits single links per week, it will give 0 results. While if one tries to submit several links per day on all popular social bookmarking sites, one will run out of time.

StumbleUpon:

Stumble is a free advertising, unique and highly effective Internet marketing technique to find potential qualified and targeted customers for practically no money.

Potential Challenges:

One will need a list of unique IPs to create multiple StumbleUpon user accounts. Then one would need to log in to each individual account and post the reviews. It would take approximately 2-3 minutes to complete just one URL review. Imagine doing it for 200 user

accounts each on unique IPs for five URLs.

Search Marketing Sales, Ltd owes its search engine supremacy to its highly effective Internet Marketing. Capitalizing over 10 years in providing Guaranteed SEO Service For Top 10 Ranking In Google and effective low-cost Web Site Promotion, this company has since perfected its StumbleUpon Submission and Social Bookmarking services to be absolutely safe and search-engine friendly.
